## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Specification***

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### ***Drawings***

3. Figures 1A-8B and 11-12 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 1-2 are rejected under 35 U.S.C 102(a) as being anticipated by Applicant's admitted prior art (APA), figures 8A-8B.

The above claims are anticipated by APA figures 8A-8B which discloses a manufacturing method of display device comprising the step of:

- . forming a plurality of display devices (103a) over a substrate (101);
- . forming a wiring led out (601), wherein the wiring is formed by exposing to light as claimed (see Description of the Related Art, page 7);
- . separating the plurality of display devices (see figure 8B).

***Allowable Subject Matter***

6. Claims 3-8 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter:

The references of record neither disclose nor make obvious a manufacturing method of display device comprising a combination of various steps as claimed including the step of bringing a detachable and conductive component into contact with the wiring on the edge of the

substrate to be processed as well as the step of detaching the conductive component from the wiring as set forth in claims 3 and 6.
